

Mukesh M

Software Development Engineer – III (SDE-3) — Full Stack Developer

mukeshta1422@gmail.com — +91 7904636531 — linkedin.com/in/mukesh-m-90761b246

Professional Summary

Full Stack Software Engineer (SDE-3) with **2+ years of experience** architecting and delivering scalable, business-critical ERP applications in the finance and logistics domains, owning modules end-to-end across Expense Management, Recurring Billing Automation, Financial Reporting, Payments, and Master Data. Expert in **React.js, Node.js, Express.js, MySQL, and MongoDB**, with hands-on experience in **system design, RESTful APIs, CI/CD automation, and performance optimization** (30%+ faster response times). Applied **Machine Learning** background (Python, TensorFlow, Scikit-learn) via fraud-detection and computer-vision systems. Seeking a full-stack, deployment, or AI/ML engineering role at a product-based organization.

Professional Experience

Eon Matrix Mindz India Pvt. Ltd <i>Software Development Engineer – III (SDE-3)</i>	Chennai, India Apr 2024 – Present
--	--------------------------------------

- Tech Stack:** React.js, Node.js, Express.js, MySQL, MongoDB, Chakra UI, Recharts
- Promoted to **SDE-3 within 2 years** for strong ownership and delivery of scalable, full-stack systems.
 - Leading a **full-stack financial & logistics ERP platform**, owning modules end-to-end across frontend, backend, and database layers.
 - Architected core modules — **Expense Management, Recurring Billing Automation, Financial Reporting & Dashboards, Payments, Balance Sheet / Trial Balance / P&L, Master Data** — including a **recurring-expense automation engine** (React UI + Node.js scheduling logic for weekly/monthly/quarterly/yearly/custom recurrence) that eliminated manual re-entry of repeat transactions.
 - Built interactive **financial analytics dashboards** (branch/division/job profitability, KPI cards, receivables & payables) using React and Recharts for leadership decision-making.
 - Implemented **multi-country tax logic** (India GST, Indonesia PPN, UK/UAE/Vietnam VAT, TDS/PPH), ensuring accurate financial computations across regions.
 - Built and scaled **RESTful APIs** for real-time, high-volume transactional workflows; improved application performance by **30%+** through query and API optimization.
 - Set up **CI/CD pipelines** using GitHub Actions self-hosted runners on AWS EC2, improving deployment reliability and release velocity.
 - Mentored junior developers and led **code reviews and system design discussions**.

Shiash Info Solution Private Limited <i>Machine Learning Intern</i>	Chennai, India Sep 2023 – Nov 2023
---	---------------------------------------

- Tech Stack:** Python, Flask, Scikit-learn, TensorFlow, Pandas
- Developed ML models (Decision Trees, Logistic Regression, Naïve Bayes) for fraud detection in UPI transactions.
 - Built data preprocessing pipelines and feature engineering workflows to improve prediction accuracy.
 - Deployed real-time ML inference APIs using **Flask**.
 - Analyzed real-world transaction data to identify fraud patterns and improve detection systems.

Technical Skills

- **Languages:** JavaScript (ES6+), Python
- **Frontend:** React.js, Angular, HTML5, CSS3, Chakra UI, Recharts
- **Backend:** Node.js, Express.js, REST API Development
- **Databases:** MySQL, MongoDB, NoSQL
- **Machine Learning:** TensorFlow, PyTorch, Scikit-learn, Pandas, NumPy
- **DevOps / Tools:** Git, GitHub Actions (CI/CD), AWS EC2, Postman, Tableau, Power BI
- **Practices:** System Design, Performance Optimization, Agile/Scrum, Full-Stack Development

Projects

UPI Fraud Detection System
Developed a machine learning-based fraud detection system with real-time API inference. Improved detection accuracy using feature engineering and model tuning.

Tech: Python, Pandas, Scikit-learn, TensorFlow, Flask

City Bus Live Prediction System
Built a real-time vehicle tracking system using computer vision techniques (YOLOv5), enabling live monitoring of public transportation.

Tech: Python, OpenCV, YOLOv5

Education

PSG College of Arts & Science, Coimbatore Master of Computer Applications (MCA)	2021 – 2023
Sri Krishna Arts & Science College, Coimbatore B.Sc. Mathematics	2018 – 2021

Certifications

IBM Data Science Orientation (Coursera) — Foundations: Data, Data, Everywhere (Coursera) — Graphic Design & Multimedia Certification
